BANYAN TREE CABO MARQUÉS, MEXICO

PRESIDENTIAL SUITE

Square Footage | 7,427

Why We Love It | As Acapulco was a major port of call for Chinese traders in the 19th century, the suite's design employs distinctive Asian elements, such as steeply pitched roofs, wide eaves and stilts, mixed with Mexican décor. This three-bedroom, three-story hideaway takes advantage of the scenic surroundings by offering 270-degree views of the Pacific Ocean, a 1,421-square-foot heated pool and an outdoor jet-pool.
